

To my patients,

Since 1992, I have been honored to be the founder of Central Texas Neurology Consultants, the first neurologic practice in Williamson County. The group was able to grow as the population in the area expanded, and I was able to focus my personal interests into the research and treatment of multiple sclerosis and related diseases.

In a very difficult decision, I have decided that I will no longer be able to continue my clinical practice and will stop seeing patients in 2023. Although it has been a genuine pleasure to provide specialized and comprehensive care for so many patients over the years, the time is right for me to step aside and leave the practice of medicine. Other fine MS specialists have established practices in the Austin area, and I leave clinical care in their capable and caring hands. For those of you who have an appointment set up over the next 2 months, those appointments will occur as planned. For later appointments, we will contact you to either schedule an earlier appointment or assist in the transfer of your care to your next neurologist. Prescriptions will be refilled until a new doctor takes them over or through the end of May, 2023.

Central Texas Neurology Consultants will transfer your medical records to the neurologist of your choice. Although the rest of the neurologists at our site are unable to provide MS care, we can recommend the following specialists in the Austin area:

UT Health Austin Multiple Sclerosis and Neuroimmunology Center  
Tel: (833) 882-2737 – 1 (833) UT-CARES  
Leorah Freeman, MD PhD  
Ethan Melzer, MD  
Esther Melamed, MD PhD

Austin Diagnostic Clinic Dept of Neurology  
Tel: (512) 901-1111  
Greg Thaera, MD

Multiple Sclerosis and Neurology Institute of Austin  
Tel: (833) 940-5270  
Erica Rivas, MD

Cedar Park Neurology and Sleep Medicine  
Tel: (512) 528-7202  
Arpita Patel, MD

For my patients living far from the Austin area, many neurologists more local to you would be capable of continuing your current treatment. Infusion services and physical therapy are available at our office, but many other options exist for you in your area. The medical record request will be may be submitted by completing the Release of Information to [ctncmedicalrecords@hushmail.com](mailto:ctncmedicalrecords@hushmail.com), by the patient portal or fax to 512 218 1393. If you have question about your medical records call 512-218 1222 ext 198. Please allow 2-4 weeks for records to be sent. Medication refills and emergency care will be provided through May 26, 2023.

Thank you for your understanding, and I wish you all the best in the future.

Sincerely,  
Edward Fox, MD PhD
